SUMMARY

Full Stack Developer with hands-on experience in designing and developing scalable web applications using Next.js, React.js, Node.js, and MongoDB. Currently working at Athena Sols, where I build production-grade solutions with a focus on clean architecture, performance optimization, and seamless user experience. I have a strong understanding of modern web development practices, including server-side rendering (SSR), REST APIs, and responsive UI design. Passionate about learning new technologies, solving complex problems, and contributing to impactful digital products in collaborative environments.
